

CITIZEN WEB

emGovPower LLC

EMPOWERING THE PARTNERSHIP OF GOVERNMENT AND CITIZENS

Online Citizen Web for local governments

The emGovPower Citizen Web application allows citizens to interact with the City using the internet. In effect, it increases the business hours of your organization to 24 hours per day, 7 days per week.

The Citizen Web is a web site attached to your City's web site, used primarily to provide e-Government functionality, including payment for all invoices maintained by your organization. Many functions that normally require a drive to City hall can be performed from the comfort of the Citizen's home.

In addition, appropriate Dashboard entries of Performance Measurement can be accessed by Citizens directly, improving the transparency of your organization.

Online Citizen Web Site

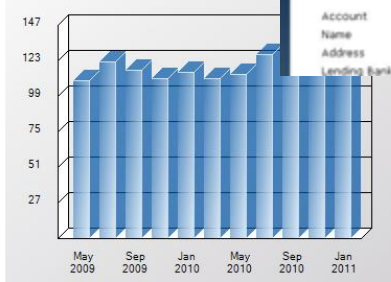

- Skinned to look just like your normal web site, Configured to needs
- Securely connected to local database(s)
- Payment of any invoice from any application
- Credit cards, Quick-Check, and ACH payments
- Apply for Permits online, request inspections
- Enter Sales Tax return information online, and then pay
- Apply for Business License online
- Apply for Employment for open positions
- View Real Property tax information
- Request Utility Billing functions - service orders

Account Bill History

This page shows the historical water and sewer charges for your account. You can get a copy of a recent bill by selecting the "View Copy" button. This option can only show recent bills. Payments and transactions are listed in the Transaction tab.
